MOUADH NEMRI

BI & Data Engineer · Power BI · ETL · Data Warehouse · Machine Learning
www.linkedin.com/in/mouadhnemri | mouadhnemri04@gmail.com | +216 23 702 602 | Tunis, Tunisia

PROFILE

Computer Engineer (MSc-level, ESPRIT, ERP-BI & Data major) building data solutions **end to end**: business requirements, **data integration** (Python, APIs, Talend), **Data Warehousing**, **Power BI dashboards**, **Machine Learning** and **automation** (Power Platform). Certified **Power BI Data Analyst (PL-300)** and AWS, preparing **DP-700** (Fabric Data Engineer). Rigorous, autonomous and comfortable presenting results to decision-makers.

PROFESSIONAL EXPERIENCE

Data Engineer — Project Analytics & Performance Management — EXCELLIA Solutions *Feb. 2026 – Aug. 2026*
Project: *Project and resource performance platform (Python, Power BI, Power Platform, ML, Generative AI)*

- **Data pipeline:** Python API ingestion (authentication, pagination, error handling) in a **Medallion architecture** (Bronze, Silver, Gold): 25,000+ rows, **−40%** manual collection time.
- **Reporting:** constellation-schema model and Power BI dashboard with **30 DAX measures**, scheduled refresh; tracks 9 projects and 51 employees, **adopted by 3 managers**.
- **Machine Learning:** several predictive models (resource performance, resolution rate) reaching **90% accuracy**.
- **Generative AI:** agent reading TMDL files to auto-document the semantic model, plus a natural-language Q&A chatbot.
- **Power Platform:** 5 Power Apps forms with validation rules; Power Automate flows saving ≈ 3 hours per week.

Business Intelligence & Data Engineer — Meninx Holding *Jul. 2025 – Sep. 2025*
Project: *Cosmitto Data Warehouse and decision dashboards*

- **Requirements & KPIs:** interviews with 6 decision-makers and definition of **12 KPIs** (Purchasing, Sales, Losses, Inventory).
- **ETL:** integration of 4 sources (Excel, PostgreSQL, Odoo, Sage) with **Talend** and a staging area (cleansing, deduplication, quality checks): 1,400,000+ rows, **−35%** data preparation time.
- **Modeling & reporting:** constellation-schema Data Warehouse and interactive Power BI dashboards (drill-down, period comparisons).

Salesforce Developer — TALAN Tunisia *Jul. 2024 – Sep. 2024*
Project: *Business process automation on Salesforce CRM*

- Customized 3 applications (objects, fields, Lightning pages, validation rules) and built **8 business process automations** (Flows, Workflows, Apex) within a consulting team.

PROJECTS

Comparini — Price comparison platform *(Scrapy · Selenium · Talend · MySQL · Flask · Angular · Power BI)* — scraped 2,000+ offers, ETL into a MySQL data warehouse (5,000+ products), Flask API, Angular front end and 5 Power BI dashboards (15+ KPIs).
Flight delay BI solution *(Data Warehouse · SQL · Power BI · DAX)* — 20,000+ flights; 12-KPI dashboards (punctuality, delay causes) with critical and optimal thresholds.

SKILLS

Languages: Python · SQL · R
BI & Reporting: Power BI (Desktop & Service, DAX) · SSAS · Excel · Dimensional modeling (star, constellation)
Data Engineering: ETL/ELT (Talend, SSIS, Python) · REST APIs · Medallion architecture · Microsoft Fabric · Spark · Hadoop · Elasticsearch
Databases: SQL Server · PostgreSQL · MySQL · Oracle
AI: Machine Learning · Deep Learning · NLP · LLM · RAG · MLOps
Power Platform & tools: Power Apps · Power Automate · Dynamics 365 · Salesforce · Jira

EDUCATION

ESPRIT — Private Higher School of Engineering and Technology — Engineering Degree (5-year, MSc-level), Computer Engineering, ERP-BI & Data *Sep. 2021 – Sep. 2026*

CERTIFICATIONS

Power BI Data Analyst Associate (PL-300, Microsoft) · Microsoft Fabric Data Engineer (DP-700, in preparation) · AWS Cloud Foundations · Data Engineering on AWS – Foundations · Deep Learning (NVIDIA DLI) · Microsoft Fabric training · CodeQuest Power BI

LANGUAGES

Arabic (native) · French (fluent) · English (B2) · German (B1)
